

CALIFORNIA REGIONAL WATER QUALITY CONTROL BOARD

CENTRAL VALLEY REGION

TENTATIVE ORDER R5-2020-R5332

RESCINDING WASTE DISCHARGE REQUIREMENTS ORDER 98-007

The California Regional Water Quality Control Board, Central Valley Region (Central Valley Water Board), finds that the Central Valley Water Board adopted the following Order which is no longer applicable for the reasons shown:

- a) Waste Discharge Requirements Order 98-007, adopted on 23 January 1998, prescribes requirements for the discharge from Plumas Eureka Community Services District wastewater treatment and disposal system, Plumas County (Facility). The Facility is comprised of two separate wastewater collection systems, a backup leachfield for each system, a community leachfield, and a land application area. The Facility is now regulated under Water Quality Order 2014-0153-DWQ (General Order) for discharges to land from small domestic systems with a maximum average daily flow of 100,000 gallons or less. Therefore, it is appropriate to rescind Waste Discharge Requirements Order 98-007.

IT IS HEREBY ORDERED that the above Waste Discharge Requirements Order 98-007 is rescinded.

I, Patrick Pulupa, Executive Officer, do hereby certify the foregoing is a full, true, and correct copy of an Order adopted by the Central Valley Water Board on <DD MONTH> 2020.
